In attendance:

Shef wed

Hearts

Exeter

Hull

Sunderland

Forest

Newcastle

Barrow/Plymouth

Southampton

Absent

West brom

Captains of all teams must remind their team of the following rules:

Team members must to stay away from the table, especially during touching ball checks. Referee and players only to check.

Do not reach for the chalk on the table while the other person is in play.

Not to take excessive amount of time when taking a shot. Agreed pace of play is good and to keep it up. 1930 starts also working well and to stay.

In doubles, once a player has touched the table, they are in play and must stop discussion.

Reminder of selecting colour after the break. Kieron to send a screenshot of the rule for all captains to circulate.

Discussions -

Suggestion to change to player breaking to set up balls. All agreed to allow the referee to set up, but have pack inspected by breaking player. All agreed that it's absolutely acceptable to ask for the top ball to be packed on tightly.

Peter is also buying a racking cloth to try and stop the ball at the top rolling away at SBC. Clarified the current set up on the break will remain the same.

Plymouth/Barrow have lost two players. There is a possibility they turn into a general APFSCIL team to keep going, to enquire with Man City and Middlesbrough and bring it up at the next APFSCIL meeting to attract players.
